## WORK EXPERIENCE

### Data Entry Analyst
LITAFI.LLC

*05/2021 - Present*                                      *New York, USA*

*Achievements/Tasks*

- Ensured entered data accuracy by comparing with basis documents and identified errors.
- Performed modifications, edits and deletions to the database based on authorized and approved documents.
- Routed data to appropriate staff for follow up and additional review.

### Data Scientist
Stutern

*05/2020 - 05/2021*                                      *Lagos, Nigeria*

*Achievements/Tasks*

- Trained a random forest to predict wine quality with 91% accuracy.
- Transfer data into a new format to make it more appropriate for analysis.
- Proffer data collection, preprocessing and analysis during a team project on building a House price prediction web app.
- Built models to address business problems. Presented analytical information using data visualization techniques.

*Contact: +234)0909 999 7645 - team@stutern.com*

## EDUCATION

### Microbiology
University of Lagos

*08/2012 - 02/2018*                                      *Lagos, Nigeria*

*Courses*

- Bsc

## SKILLS

Communication · Team · Python · Excel · Google · R PROGRAMMING · MICROSOFT OFFICE · MICROSOFT AZURE · pOWERBI · TABLEAU · DATA WRANGLING · DATA ENGINEERING · MACHINE LEARNING · RESEARCH

## PERSONAL PROJECTS

### House Web App (12/2020 - 02/2021)

- A team of six; Two Data-Scientist, Two Software Engineers and Two UI/UX designers. Myself and my team built a web app that gives an estimated price of houses in Lagos, Nigeria. I was the Data Science Team Lead.

### Red Wine Quality (08/2020 - 08/2020)

- I determined the physiochemical properties that makes red wine good via exploratory data analysis and also predicted the quality of the wine using some Machine Learning Techniques.

### A Research Analysis on Africa Economy Crises (08/2020 - 09/2020)

- After multiple visualizations it can be concluded that africa's economy is growing rather slow over the years with little or no banking crisis and systemic crisis.
